

UTILITY FRONT TRAY BAG

For Benno® Utility Front Tray

This large capacity, extra-durable bag is designed to fit in the Benno Utility Front Tray. It installs easily with four Velcro tabs, helping you carry and secure a variety of different loads. Its unique, versatile design gives you multiple options: Close the top and fold it over onto the Velcro strips, roll the top and secure the plastic fastener or cuff the sides and use it like an open basket.

UTILITY FRONT TRAY BAG INSTALLATION AND USAGE

Place bag (with logo facing forward) into the tray. Find the four Velcro tabs (two on the bottom front and two on the lower rear) and place them around the tubing of the tray. Feed each Velcro tab through the plastic loop and pull it tight. Then secure the end and velcro it back onto itself. **IMPORTANT:** Make sure the bag is securely attached to the tray.

1. THE FOLD OVER

Close the top and fold it over onto the Velcro strips

2. THE ROLL AND FASTEN

Roll the top down and secure the plastic fastener

3. THE SIDE CUFF

Cuff the sides and use it like an open basket
